Campaign: Aqualogica Glow+ Dewy Sunscreen Gel (Daily Protection Performance Concept)

Execution Draft for Instagram Reels & Stories

---

1. Creative Strategy Overview

● The Angle: From Bare Skin to Dewy Protected Glow.
● The Hook: Busting the myth that “indoors = no sunscreen” by showing how everyday sun exposure still causes dullness and tanning.
● The Payoff: Dewy, hydrated glow with SPF 50+ PA++++ protection shown in raw natural light.
● The CTA: Protect your glow. Comment GLOW to get the link.

---

2. The High-Performance Reel Script (30 Seconds)

Time	Visual Scene	Audio / Voiceover (Mic in Hand)	On-Screen Text (Supers)
0–5s	Bare face near window/balcony in daylight. Creator slightly squinting at sunlight, looking directly into camera.	If you think you don’t need sunscreen indoors or on cloudy days… your skin is already taking damage.	That is NOT protected skin. That is sun damage starting.
5–10s	Mirror shot. Creator wipes face or splashes water, reaches for Glow+ sunscreen.	Daily sun exposure causes dullness and tanning. Your glow needs protection first.	Real Glow Starts With SPF
10–17s	Fast cuts of Glow+ Dewy Sunscreen Gel tube + gel texture on finger/hand.	This is my Aqualogica Glow+ Dewy Sunscreen Gel. SPF 50+ PA++++, in-vivo tested. With Papaya, Vitamin C and Hyaluronic Acid for glow and hydration.	SPF 50+ PA++++ / Glow + Hydration
17–23s	Standing in strong natural light near window. Skin looks fresh, dewy and even.	Look at this. No filter, no makeup. Just protected, hydrated, dewy skin.	The Payoff: Dewy Glow / No Filter. No Makeup.

23–27s	Slow face turn in sunlight. Dewy finish clearly visible.	This is what daily sunscreen does for your skin.	Daily Protection = Daily Glow
27–30s	Relaxed frame in clean outfit holding product close to camera.	If you want glowing skin with serious sun protection every day, switch now. Comment GLOW and I'll DM you the link.	Comment GLOW for Link / Protect Your Glow

---

3. Creator Checklist (Non-Negotiable)

● The Glow Reveal: The 17–23s window shot is critical. Must be filmed in strong natural daylight to prove real dewy finish.

● No Filters: Absolutely no beauty filters. Real skin texture must show.

● Real Daylight Hook: Start the video facing actual sunlight (window/balcony/terrace).

● Environment Shift: From casual indoor light → bright window light to visually show protection + glow payoff.

● Product Visibility: Brand name + "Glow+ Dewy Sunscreen Gel SPF 50+ PA++++" must be clearly readable.

● Texture Shot Mandatory: Show gel consistency on finger or hand.

---

4. High-Conversion Caption

- Stop skipping sunscreen just because you're indoors.
- Everyday sun exposure dulls your skin way more than you think.
- I use Aqualogica Glow+ Dewy Sunscreen Gel with SPF 50+ PA++++ to protect my glow while keeping my skin hydrated.
- Powered with Papaya, Vitamin C and Hyaluronic Acid for that fresh, dewy finish.
- No white cast. No heavy feel. Just daily glow + protection.

Comment GLOW and I'll DM you the link.

5. Instagram Story Options

● Before Reel Goes Live (Static Story)
Text on bare-skin selfie:

“Do you wear sunscreen indoors? Your glow depends on it.”

● After Reel Goes Live (Video Story + Reel Link)
Creator in natural light showing skin:
“This is the dewy payoff from SPF 50+ PA++++ + glow ingredients. Daily sunscreen is non-negotiable.”

● Product Picture with Link Sticker
Text: PROTECT YOUR GLOW DAILY

Video Content Flow

1. Hook (0 - 5 sec) > 2. Product Reveal > 3. Demo + Proof Moment + Benefit Callouts > 4. Results + Claim Reinforcement > 5. CTA (Last 5 sec)

Layout

Position the model Face close to the frame, ensuring safe space at the bottom.

Keep the product in the lower half so text can appear on top.
